Outsourced HR Support

Management of the HR function is necessary for the effective running of any organization. However, a reactive approach, or one that is not consistent, can mean that key individuals get swamped by things that take them away from what they are trying to achieve strategically, or where HR requirements are often not met.

Prestige HR provide outsourced HR support from HR Admin to HR Director level, to cover absence, or to provide that additional much needed support.

Learning & Development

The world of work is constantly changing as is the need to continuously Learn and Develop to remain competitive, efficient and productive!

We provide a full range of Learning and Development programmes, tailored specifically to the business, so that staff and managers continue to grow in their roles, and careers.

We have a team of Trained Trainers, as well as Coaching and Mentors for side by side development.

Health, Safety and Wellbeing

We are experienced in Health and Safety Management as well as Staff Wellbeing ensuring that your business or organization continues to provide a safe working environment for your staff, managing the physical resources through Health and Safety Risk Assessment Management and the Human resource through Stress, Resilience, Dignity at Work, Culture of kindness approaches.
